

## Notice

The following document, sometimes called a *codebook* by epidemiologists, is a digital image of material provided by Argonne National Laboratory as part of the descriptive information pertaining to the collection of files offered in CEDR's Radium Dial Painters data file set. Researchers at Argonne's Center for Human Radiobiology (CHR) developed this codebook during the course of their program. Since this detailed information may be helpful in better understanding the variables contained in the data files, CEDR has prepared this digital form of the codebook to accompany the files. In some cases, these CHR codebooks apply to more than one data file.

Small portions of the following digital image were modified to be consistent with CEDR's treatment of confidential or sensitive information, i.e., to avoid disclosure of names, telephone numbers and addresses of individuals involved in the research. More details about CEDR's requirements for de-identifying data can be found in Guidelines for Data Providers (<http://cedr.lbl.gov/strucdoc/coverpage.html>).

## SECTION 7: GROWTH ALTERATIONS

## 70 - GROWTH ALTERATION

7000 Growth alteration  
 7001 Abnormal endochondral ossification  
 7010 Growth arrest  
 7011 Growth retardation  
 7012 Dwarf, NOS  
     Dwarfism  
 7013 Dwarf, achondroplastic  
 7014 Dwarf, pituitary  
 7015 Midget  
     Dwarf, primordial
